

CSI Las Vegas January 12th Meeting

Nevada's Green Economy and Construction Jobs

Please join us for an evening focusing on new construction jobs created from solar energy, energy efficiency and other renewables in Nevada's fast growing "green economy." We will focus on how to do this in Vegas, and as with all of this year's presentations, is intended to draw out questions regarding local application and practicality.

Randy Hynes, President & Marketing Director at Solar Forces will present an insightful 30 minutes about new construction jobs created from solar energy, energy efficiency and other renewables in Nevada's fast growing Green Economy. The focus will be on expanding present skills or cross-training to keep pace. Randy is excellent in front of any size crowd and is an energy instructor for Solar Forces through Associated Builders and Contractors and College of Southern Nevada.

Please join us for an entertaining and informative program, and remember your food donations!

Bring a guest to dinner...it's free this month!
